

FROM PASSION TO SOLUTION

>> **Inspired** by the fresh breath of Nature and your satisfaction with our products and service, *EVERREDtronics* team is always here with full of passion providing you best solution for energy saving and adding environmental & social value to your products and your company.

Sustainability on both humanities and environment is our ultimate mission, we are sustainable technology believers and practitioners. Today, we invite you join us and together create a colorful world for ourselves and our later generations!

EVERREDtronics Limited, established in 2009 in Shanghai, is the joint-venture company with Hebei Yuxian Electronic Limited (Previously State owned in Hebei Province, middle-north of China), operated as vista connecting to the world. The parent company was founded in 1971 and it has dedicated itself to produce the semiconductor materials and devices since then. In 1986, it was introduced the advanced technologies from the Chinese Academy of Sciences and Tianjin Power Source Research Institutions and turned to produce Thermoelectric Cooling Module (Peltier module)., and since 2005, and we have invested large amount of funds and human resources on developing the thermoelectric materials, generator module (Seebeck module) and semiconductor related peripherals; As one of the professional companies on Thermoelectric Module manufacturing, our company can provide customers module and micro module in more than one hundred different specifications. We can also produce module in specific specification and application as per client's demand. At present, the annual production capacity has reached 2.0 million. We are proud of our skillful workers and strict inspection system (a thorough quality control from the raw materials procurement, crystal growth, pellets selection, module assembly, to the dispatch of the final products). All our products are 100% tested and inspected (Using the test equipment from American TE company), and therefore the quality is absolutely ensured.

Our company has also successfully passed the ISO9001:2000 International quality certification and the SGS Europe Union certification. All these advantages make us an outstanding leader in the thermoelectric industry. Our products are mainly sold to European countries such as UK, Spain, Italy, and USA, Canada, South America, South Korean, and Australia etc. Our products are also available in domestic market. The products of our company are wildly used in water coolers, heat exchanging system, air conditioners, portable automotive refrigerators, infrared detector, thermotank, the cooling source or heat pump of medical equipment and waste harvesting system.

EVERREDTRONICS

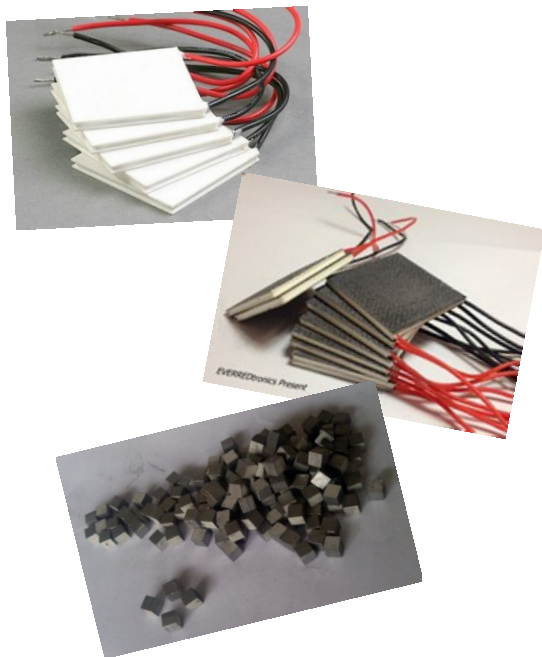

- WHAT WE DEDICATED TO
 - Waste Heat Recovery
 - Thermoelectric Modules
 - Thermoelectric Materials
 - Thermal Management

COMPANY BROCHURE

OUR PRODUCTS

- ❖ Thermoelectric Peltier Coolers
- ❖ Thermoelectric Generators
- ❖ Aluminium Substrated Peltiers
- ❖ Multi stages Peltiers
- ❖ Max. 200°C Peltier module
- ❖ Thermoelectric P & N Materials

OUR FACILITIES & STAFF

300 employees
50 technicians
2.0 million pieces' capacity
New Factory covering 6726 square meters

OUR CREDENTIALS

3M Singapore

ABB

MAGNA INTERNATIONAL

DELTA ELECTRONICA ITALY

THERMOTRON KOREA

TATA INDIA

PENN STATE UNIVERSITY

ALPHABET ENGERGY

HONEYWELL
